

## LINCOLN LEGAL SERVICES (MYANMAR) LIMITED

NEWSLETTER 22 - 27 March 2017

**Dear Readers,**

Just a quick note to make you aware of the following tenders:

**Myanma Oil and Gas Enterprise (MOGE)** is looking for joint venture partners for: (i) **seismic acquisition services** (<http://tinyurl.com/lbjl7t3>), (ii) **onshore drilling services** (<http://tinyurl.com/khb6ogh>), and (iii) **onshore pipeline construction and maintenance services** (<http://tinyurl.com/mwlvuv>).

As some readers may recall, the tenders were already put out once in 2014 but led to nothing at the time. Interested parties can download the tender invitations at the links provided above. They have to purchase a request for proposal for USD 500 at Complex 44, MOGE Office, Nay Pyi Taw and submit the application until 24 April 3pm.

The tender notices first appeared in the state-owned press on 24 March 2017, and interested parties are only given until 4 April 2017 to submit questions and comments on the draft of the joint venture agreement. Furthermore, they have to submit their proposal (not just an expression of interest) until 24 April 2017.

It is anybody's guess why MOGE chose such a tight timeline, in particular as (i) the Thingyan holidays are in between and (ii) at its first attempt in 2014, MOGE extended the deadline for the submission of expressions of interest by an additional month as it apparently failed to collect enough good ones during the original period.

In any case, we wanted to make readers aware of the tenders as the deadlines are fast approaching.
